

Feature Guide

For each feature outlined in the project description, there is information to help you try the feature out.

Feature 1

Enter the login page and click register. Fill out all fields and provide a valid email address you can access.

Feature 1a

Upload a picture and provide the requested information.
Agree to the terms of usage.

Feature 1b

Check the email address you provided. Click on the link found in the email sent by MUNSN. Your account will be fully registered and you will be brought to the main portal page.

Feature 2

Go onto a user's profile by **clicking their profile image in a post** and click "add friend". The recipient user will get a friend request and you will become friends when the recipient user accepts the request.

Feature 3

After registering, you will be suggested friends to add. The suggested friends will be provided on the right hand side of the page on the portal page (the main page). You can cycle through the list of suggested friends.

Feature 4

Click on your profile image located in the top left of the screen. You will be brought to your profile. You can also view another persons profile by clicking on their profile image. In the profile page, there is a box that can contain content for posting. You may add a picture, or text.

Feature 5

Posts have an option bar that allows you to select visibility.

Feature 6

At this moment, anybody can post on anybody's timeline. Not yet implemented.

Feature 7

When a post is invisible to the user based on the settings, they will be unable to comment on the post.

Feature 7a

Comments can be found in any post. Replies can be made to comments in posts.

Feature 7b

Comments can be found in any post. Comments can be edited but the history cannot be displayed.

Feature 8

To create a group, go the left hand side bar and click "Create New Group". When the group is created, it will appear in the group list.

Feature 9

Click on lost and found link on the left hand side bar. You will be brought to a page that displays lost and found objects previously posted by users. You can create a new lost and found object by filling out the information on the right hand side of the page and clicking submit.

Feature 10

Click on schedule in the bar in the lefthand side. Fill out the information and add new events to your calendar.

Feature 11

Click on profile picture. Then click the resume button. Click select to choose a pdf to upload. Then click upload.

Feature 12

Not implemented.

Feature 13

Click on CHAT button in lower right hand corner of screen. To select a user to chat, type “/pm <userid>”

Try messaging Kyle. Type “/pm kpwh23”
